

CAMP IN COMFORT

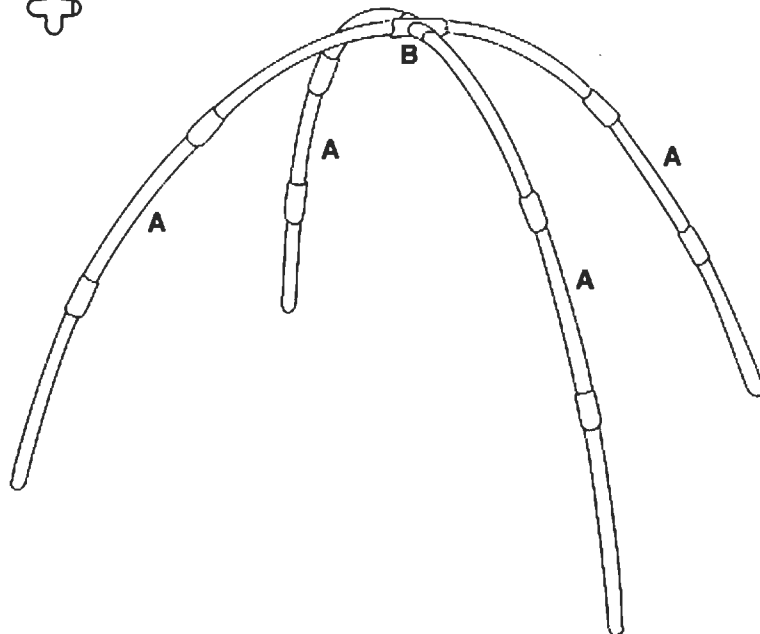

- 1) Connect the four tube & joint sets to create four poles by pushing them into the joints (A).
- 2) Fit these poles through the pole sleeves on the top and sides of the tent. Then, connect all four poles with the cross joint (B).
- 3) Fit the ends of the poles into the pole pockets located at each corner of the tent.
- 4) Place the tent on top of the bed mattress. Secure under corners of the mattress with elastic straps which are sewn to the corners of the tent.

Please note: The poles are designed to support the tent's nylon cover and should not be used for any other purpose otherwise breakage may occur.

A. Tube & Joint Set

B. Cross Joint

WARNING: KEEP ALL FLAME & HEAT SOURCES AWAY FROM TENT FABRIC
The tent meets the flammability requirements of CPAI-84. The fabric may burn if left in continuous contact with any flame source. The application of any foreign substance to the tent fabric may render the flame-resistant properties ineffective.
